

Pakistan Endocrine Society Grant Application Form

1. **Title of the Research Project.**
2. **Name, Designation and Qualification of Principal Investigator.**
3. **Name, Designation and Qualification of Co-investigator(s).**
4. **Institution(s)/department(s) participating in the study.**
5. **Duration of the Project.**
6. **Total funds requested.**
7. **If a grant is made, I will ensure that the funds provided are used for the purpose for which they have been given. I also agree to submit in proper form interim and final reports of the work as and when required by the Pakistan Endocrine Society, and to make available the records of my research to person/persons deputed by the Society to inspect the progress of my research project.**
8. **Certified that existing facilities of the department concerned will be made available to the candidate(s):**

Date: -----

Signature -----
(Head of Institution)

9. **Summary of Proposed research:**
10. **Introduction (Background/ Rationale, stating clearly the importance of the work /Critical review of literature with references)**
11. **Aims and Objectives**
12. **Resume of any related work carried out by the Principal Investigator or Co-investigator in this area. Research projects carried out previously by the Principal Investigator:**
13. **Methodology and Experimental design in detail**
 - a) Study setting
 - b) Study subjects/study population (inclusion and exclusion criteria)
 - c) Ethical consideration
 - d) Study Design
 - e) Sample size (and how this was calculated).

- f) Sampling Strategy/Methodology:
(State clearly whether the sampling was for eg. convenience sampling etc)

Method by which subjects were selected

Data collection method:

[In this section, mention data collection tools, such as questionnaires (annexed with the form); details of any physical measurements taken; laboratory testing].

- g) Data management analysis

Variables are the characteristics intended to be measured during the research. Variables to be studied must be listed on the basis of their relevance to the objectives of the study. Each variable should be defined, under the heading of dependant variable(s) and independent variable(s).

Data Management (include data editing, software used for data entry, no. of data entry operators, logic error checking).

Statistical Analysis

14. Existing institutional facilities for carrying out this research scheme. State if the proposal had or has been submitted to any fund-giving agency for financial support, and, if so, with what results.

RESEARCH PROPOSAL BUDGET

TABLE -1 PERSONNEL

Expenditure on Salaries and Honoraria
(N.B. Amount in Rupees to be mentioned)

Category of Personnel Specify scale of pay	% of time on Project	Year 1 Rs	Year 2 Rs.	Year 3 Rs.	Total Rs
Scientific Staff Title & Name					
1.Principal Investigator :					
2- Co-Investigators:					
Technical Staff Title & Name					
1.					
2.					
Other Staff					
1					
2.					
Sub Total					

TABLE –II **OPERATIONAL EXPENSES**

Item	Year 1 Rs.	Year 2 Rs.	Year 3 Rs.	Total Rs.
Consumable Supplies				
1. Chemicals/kits				
2. Medicines				
3. Data Analysis				
4. Data entry operators				
5. Laboratory investigations				
Sub Total:				

TABLE -III **INDIRECT COST**

Item	Year 1 Rs.	Year 2 Rs.	Year 3 Rs.	Total Rs.
Stationery				
Literature reprints Printing of report				
Petrol/Diesel/ transport				
Sub-Total				

TABLE -IV**BUDGET SUMMARY**

Item	Year 1 Rs.	Year 2 Rs.	Year 3 Rs.	Total Rs.
Personnel (Table I)				
Operating Expenses (Table II)				
Indirect Cost (Table III)				
Grand Total:				

TABLE-V

BUDGET JUSTIFICATION

(Please justify briefly each item in the budget)

Item	Justification

Please return the completed application pack to the following e-mail address:

pakendo4@yahoo.com

Mail: P.O.Box 2177, Karachi- 74600, Pakistan.

Last date of submission: 15th November' 2009.
